### **2.5.2**

The evaluation processes is clearly described in the syllabus. The copies of the same are easily accessed by the students and other stake holders from college library, university website and college website. Any changes in the evaluation processes are notified by the universities to all its constituent colleges by post as well as displayed on its website and the same is communicated to all the staff and students via circulars and display on the notice boards.

The internal exams (sessional) are held periodically. The internal in-charge prepares the time table according to prescribed calendar of events and makes necessary arrangements for its transparency and smooth conductance. This information is also communicated to all the staff and students via circulars and display on the notice boards.

The prescribed syllabus is divided into 3 portions for 3 internals. The sessional paper pattern is clearly explained to the students by the teachers and is divided into long essay questions, short essay questions and short answer questions.

After the sessionals, the corrected sessional booklets are circulated by the subject teacher amongst the students. If there are any grievance, they are addressed incorporated and the marks are shown to the students. The periodic sessional assessment of the students is also communicated to their parents/guardians via post. The average sessional marks are shown to the students; their signatures are taken before sending them to the university via internet.

The evaluation processes are clearly described in the syllabus.
