

### **Alternative energy initiatives**

Alternative Energy Initiatives aims at enabling the installation of large-scale renewable energy capacity in the college campus, which would have a considerable impact on the reduction of electricity. The BLDEA's SSM College of Pharmacy and Research Centre, Vijayapur has already implemented the solar energy sources as one of the alternative energy sources for Boys and Girls hostel. The same will be planned to implement in the college campus.

Solar Power Panels in the Boys and Girls Hostel.
